Avoid Secret Stomach Remedies

Because Most of Them Contain Dangerous Ingredients, Which Produce - the Drug Habit.

ous Ingredients, Which Produce

the Drug Habit.

Thousands of people, having dyspepsia or stomach troubles in some form, continually "dope" themselves with all sorts of secret tonics, drugs, pills, cathartics, etc., which not only Inflame and irritate the stomach and intestines, but in many cases cause the opium, morphine and cocarine habits.

You have a right and should demand to know what any medicine contains before you take it, unless it is put up or recommended by some reputable physician. Fakes and quacks will put most anything into their secret preparations, to make you like their useless stuff so as to want more of it, until it makes you like victim of some drug habit, which will ruin your health in a short time.

Stuart's Dyspepsia Tablets are not a secret remedy, they do not contain inturious drugs, and they are recommended by thousands of physicians in the United States and Canada to their patients for dyspepsia, catarrh of the stomanh, and all other stomach troubles resulting from improper digestion of food. These wonderful fablets actually digest food because they contain the very elements that are required of a healthy stomach to properly digest food, thus acting as a substitute and sixing the overworked digestive organs a rest and a chance to regain their former health, strength and vigor.

Stuart's Dyspepsia Tablets contain fruit and vegetable casences, the pure concentrated fineture of hydrastis, and solden scal, which tone up and strengthen the mucous coats of the stomach and increase the flow of gastric and other digestive judges; factorse (extracted from milk); nux, to strengthen the nerves controlling the action of the stomach and increase the flow of gastric and other digestive judges; lactorse (extracted from milk); nux, to strengthen the nerves controlling the action of the stomach; bismuth, to absorb gases and prevent formication, and pure asoptic pepcin (gov. test) of the highest digestive power. All of these are scientifically incorporated in large fifty-cent boxes, by all druggists.

UNKNOWN WOMAN IS MYSTERIOUSLY MURDERED

ARLINGTON, Mass., March 28,-The body of an unknown woman, with the throat cut and showing many indications of murder, was found in a pit in St. Paul's cemetery by two boys today. The condition of the body seemed to indicate that the woman had been

dead for several hours. The woman's head had been nearly severed from the body. There were apparently two wounds on the neck, both made by a sharp instrument, one on the right side and the other on the loft, nearly meeting under the chin.

It is believed that the woman was a resident of either Cambridge or Somerville.

There was no trace of a weapon near the place where the body was found, but there were evidences of a struggle

on the ground.

The woman evidently was about 25 years of age, of slight build, and about 6ve feet three inches in height. The body was clothed in a dark gray skirt, blue coat, and a bat of straw trimmed with red flowers.

Residents in the neighborhood stated today that no cries were heard during the night!
